---

**Front-End Developer with 2+ years of experience** delivering scalable Angular applications and integrating with RESTful APIs. Strong background in UI/UX principles, performance optimization, and cross-functional collaboration. Recently expanded into back-end development after completing a .NET course. Passionate about clean code, modern web standards, and delivering impactful user experiences.

## PROFESSIONAL EXPERIENCE

### Front-End Developer (Angular)

**Tilde Technology -** Oct 2024 – Present
- Built and maintained reusable UI components and services using Angular, following DRY principles for scalable and consistent design.
- Participate at migration efforts from legacy AngularJS to Angular 16+, resulting in better performance, maintainability, and adherence to modern best practices.
- Contributed to Agile workflows through sprint planning, daily stand-ups, code reviews, and retrospectives, ensuring timely and high-quality deliverables.

**Shura Solutions -** Aug 2023 – Oct 2024
- Developed and maintained Angular-based applications for e-commerce and product management use cases, with a strong focus on mobile-first UI and performance.

## EDUCATION

Bachelor of Computer Science
Benha University, Benha, Qalyubia                                                    2017 – 2021

## CERTIFICATIONS

.NET Course, Route Academy.                                                          2025

Angular, Udacity.                                                                    2023

Front-End Web Development Bootcamp, Udemy.                                            2022

## TECHNICAL SKILLS

**Front-End Development**: JavaScript, TypeScript, Angular, bootstrap, tailwind, Ionic
                  Familiarity with React JS, Next JS, Material UI, React Native

**Back-End Development**: C#, .NET Core, ASP.NET, SQL, RESTful APIs
                  Familiarity with Node JS, Express JS, MongoDB.

# PROJECTS HIGHLIGHTS

**- Money Collector**

Real-time dashboard built for NDC to manage agency balances, wallets, and top-ups.

- Led the front-end development of the project using Angular 18 and Tailwind CSS, ensuring a modern, responsive, and consistent UI design across the application.
- Integrated Google Maps for live tracking of field agents, SignalR for real-time communication, and various modules such as:
  - Dashboards, Reports, Wallet Management, OTP, Activation Codes, Roles, and Commenting System

**- NATIONAL DISTRIBUTION CHANNEL (NDC)**

Online sales channel B2B for Wonder travel.

- Worked on a large-scale legacy codebase, fixing critical bugs, resolving UI inconsistencies, and implementing new features.
- Liaised with stakeholders to align technical solutions with business goals.

**- NDC Uplift**

A modern reimplementation of the NDC Core with a new UI/UX and updated architecture.

- Rebuilt the entire front-end from scratch using Angular 16 based on the latest design system.
- Ensured functional parity with the legacy system while improving speed and maintainability.

**- Price Hunter (Ionic Application)**

A product management system, enabling admins to add, edit, and sync product data.

- Designed and implemented the app from scratch using Ionic
- Built scalable and reusable components to manage thousands of product records efficiently.

**- ElZatoonah (Ionic Application)**

Price comparison mobile app that helps users discover and compare prices and offers across different markets.

- Contributed to feature development, fixing critical bugs and UI enhancements to improve user experience and performance.

# CORE COMPETENCIES

- Agile Mindset: contributing to sprints, planning, and iterative improvements ·
- Collaboration: working with designers, product managers, and backend engineers ·
- Problem Solving: identifying challenges and delivering efficient solutions ·
- Communication: explaining technical concepts to non-technical stakeholders ·
- Time Management: prioritizing tasks and meeting deadlines across multiple projects.
- Continuous Learning: staying updated with frameworks, tools, and best practices.
